## The IT Solutions DataVault™

Our proven approach to reliable backup that's easy to maintain and monitor

Your data is your network. So keeping your data safe and available has always been a top priority at IT Solutions. We know how important every file, spreadsheet, drawing, or e-mail is to your business.

So we provide the DataVault for comprehensive protection and preservation of all your data. With the DataVault, your information is backed up 5 different ways – every day. It's all part of our core philosophy of preventing problems before they start and, in the event of an incident, getting you back up and running fast – without a huge consulting bill.

### 5 Ways the DataVault™ Protects Your Data

- Nightly Backups
- Bi-Weekly Offsite Disk Rotation
- Daily Imaging of All Covered Equipment
- Cloud-Based Storage for Your Most Critical Data
- Hard Disk Recovery for All Covered Equipment

### DataVault™ Features

- ITS DataVault Device Installed Onsite at Your Location
- Daily Monitoring and Management of Disk-to-Disk Backup Jobs
- Unlimited File Restores from Backup (no user intervention required)
- Daily Imaging of All Covered Servers on the Network  
for Fast Rebuilds in the Event of a System Crash
- Up to \$5,000 for Hard Disk Recovery Services
- Hardware Assurance Plan – Includes Loaner Machines for Covered Equipment

### Did you know?

58% of small/medium businesses are not prepared for a data loss incident and 60% of those companies that lose data will shut down within six months.
